Recruiting drive set for the county

GCI looking for 32 more officers

BELLE GLADE—A team of recruiters will be in the area in the near future to try to fill an acute shortage of personnel at Glades Correctional Institution according to Superintendent Robert V. Turner.

Turner said GCI is 43 positions short of the full-strength figure of 268 employees, with 32 of those positions being correctional officers. He said the institution would normally employ 131 correctional officers.

The personnel situation at GCI has deteriorated since Turner arrived to take over the position of superintendent he said Monday and added that while standards for hiring officers are getting tougher, attempts are being made to make the jobs more attractive.

One of the attractions already available is a pay incentive offered to all Department of Offender Rehabilitation officers employed in Palm Beach, Dade and Broward Counties but Turner said the DOR has begun procedures to double that figure, adding another \$500 per year to the current starting salary of \$9,082.

The only educational requirement for the correctional officer jobs is to have either a high school education or the Florida general equivalency diploma (GED) but Turner said the applicant must also pass a general IQ type examination.

Once the applicant is hired, he must also complete 160 hours of classroom instruction, which is completed at the state's expense while the employee is on the payroll.

"The standards aren't all that strict," Turner said. "They're stricter than they were a few years ago but many of the officers we had a few years ago probably couldn't function here today and we don't feel we can afford to relax our standards."

One change Turner said has come about during the recent past has been the hiring of female

correctional officers. There have for years been female employees at GCI but only recently have women been hired in security positions.

"This is something new," he said, "but I'd like to stress that we have a number of positions open for women. We're not going to put them in the dormitories with the men of course but there are several positions available to women."

He said the chances for upward

mobility for both men and women hired at the beginning level are good, noting that the first woman officer was promoted to sergeant about three months ago at the prison and that four of the 32 positions now open are for sergeants and two are for lieutenants.

Turner and Personnel Director Jerry Arline said there are a number of reasons for the continuing shortage of personnel. They

cited the lack of housing in the Glades area, the low incentive pay and the problems of many applicants in passing the entrance exam and completing the course of study.

Arline said approximately two of five applicants from the Glades area have failed the entrance examination, a test Turner said is similar to the functional literacy test now required by the state before a high school diploma will be awarded.

"It's just a common sense test," Arline said, "but if a person can't read well enough to get through the questions in the time allotted, he can't very well pass the test. And we can't very well use an officer who can't read his assignment sheet."

Turner said the team of DOR central office personnel staff and regional office personnel officers, when they've set to Palm Beach County, will concentrate their efforts on the coast because that's where most of the new recruits will probably come from.

He said approximately 30 percent of the current GCI employees now commute from the coast, in an area ranging from Stuart on the north to Delray Beach on the south.

"I don't believe pay is the problem so much as housing," Turner said. "The pay isn't that much less than a teacher starts out with." He said he believed adequate housing would probably solve the real personnel problem.

A factor which could aggravate the situation, Turner said, is that a new dormitory is now being planned which should be built during the next year to house the institution's burgeoning population.

He said the new dormitory would require adding another 12 vacancies to the 32 now existing.

Another factor aggravating the situation over the years existing a few years ago is the makeup of the inmate population. When he arrived, Turner found a population made up primarily of minimum and medium custody prisoners with a sprinkling of close custody prisoners. Now, he said, most of the inmates are close custody.

Besides the pay differential increase, DOR is attempting another play to make employment here more desirable by requesting the state Department of Administration to allow the employees here to work a 10 hour, four day work week.

Anyone interested in employment Turner said is invited to phone Arline at 996-5241.

AN INTRICATE TRACERY of guy wires swooping 250 feet high frame Belle Glade Repeater Association member Ralph Marotta Sunday as he installs a two meter antenna high above the ITV Center here.

Hams go high to repeat

BELLE GLADE—An unmanned repeater station which is expected to provide emergency radio contact from Belle Glade to both the east and west coasts of the state was installed Sunday at the West Area ITV (Instructional television) center on SR715.

Some 15 members of the Belle Glade Repeater Association got together for the entire afternoon in work-and-play day to place the two meter vertical antenna 250 feet high on the ITV tower, making it the last ITV tower in the county to host an amateur radio repeater antenna.

While club member Ralph Marotta was actually installing the antenna on the tower, other members were busy on the ground installing the coaxial cable and equipment inside the center and their wives and children were enjoying a leisurely afternoon on the ITV grounds.

In the meantime, club members Roy Carter and Tony Toulis were preparing a barbecue dinner for later in the day.

Carter said the 147 megahertz repeater will be the second one in the Glades. The first is located on the water tower at the city's water treatment plant.

He said the new facility can be used by any amateur operator in the area, noting he talked to one ham operator in Panama who said he could reach anywhere in South and Central America with a 1.5 watt talkie, using such a repeater station mounted on a 5,000 foot cliff.

Carter said the station is being installed in cooperation with the county, the school board and the city, providing communications with points as far away as West Palm Beach on the east, Fort Myers on the west and similar distances to the south and north.

He explained that while ham operators on the lower frequencies can contact anywhere in the world, the repeater station serves a frequency band so high it operates only on line of sight.

Belle Glade—The retirement of Mrs. Miriam Burgess, headmistress of Glades Day School, has been announced.

She will be replaced by William M. Branyom who most recently was employed by Howey-in-the-Hills Academy. Her retirement will take effect at the end of the school year.

Mrs. Burgess has been with the local school for the past 11 years. Before that, she was the junior high dean in the former Belle Glade Junior High School.

Glades Day was founded 13 years ago with a campus in Pahokee and was designed to care for students through the first two years of high school.

Under Mrs. Burgess' direction, it has become a full-fledged and accredited school with instruction in all 12 grades.

A reception is planned at the school for Mrs. Burgess on Friday night. Invitations have been sent

for the reception.

Mrs. Burgess has served as a member and vice president of the Florida Council of Independent Schools, the Florida Kindergarten Council, and the Florida Beta Club Council.

Two of her children attended and completed high school at Glades Day. A son, Teb, was graduated with the first class in 1971 and a daughter, Carla, was a member of the class of 1977.

Another daughter, Mrs. Sherri Dagherhart lives in Charleston, S.C.

Mrs. Burgess' husband, T.E., is a local real estate agent.

The new headmaster, Branyom, is a native of Alabama and was graduated from Troy State. He received his masters from Rollins College in 1967 and has worked toward his doctorate at the University of Florida. Branyom said he may transfer from UF to Florida Atlantic to complete work toward

Headmistress Miriam Burgess

Mrs. Burgess to retire from GDS

his doctorate.

Branyom worked in the Orange County school system at Edgewater High School for years, then served as assistant principal of Stonewall Jackson High School before going to Lake Highland Private School and from there to Howey-in-the-Hills.

Branyom and his wife Betty will move to Belle Glade later this year. She is employed as a secretary at Leesburg hospital at the present time.

Florida from September through March.

Seed is being shipped in moisture proof bags. It should be stored in a cool, dry area because it loses its germination and vitality quite rapidly if the seal is broken and the seed is exposed to moisture from the atmosphere or high humidity in a regular cold storage room or home refrigerator. Seed bags that have been opened should be resealed.

The new hybrid has so little starch in the kernels, Wolf explains, the rate of germination and degree of seedling vigor may be less than for existing sweet corn hybrids. This problem can be solved, however, by planting extra seed in the row and thinning the seedling plants to the proper spacing.

Commercial growers can use the

see CORN PP12

Wolf presents new type of corn

BELLE GLADE—A new sweet corn hybrid with a higher sugar content than existing hybrids—and a superior consumer taste—rating—has been released by the University of Florida's (UF) Institute of Food and Agricultural Sciences (IFAS).

As its name implies, "Florida Staysweet" retains its sweeter flavor long after harvest, which means the corn can be shipped to distant markets without the loss of quality that plagues other hybrids. The new hybrid is suitable for both home gardens and commercial production.

"In one taste test, 82 of 84 persons eating Florida Staysweet liked the corn and 56 acclaimed it as the best tasting corn they had ever eaten," says Professor Emil A. Wolf, who developed the new hybrid at the IFAS Agricultural Research and Education Center here.

He believes its sweeter taste

and superior eating quality will generate increased demand for Florida sweet corn during the state's fall, winter and spring commercial production seasons. Since Florida supplies almost all of the nation's sweet corn during these periods, the availability of a better tasting corn will strengthen the state's position in the national produce market.

During the past ten years, Florida sweet corn plantings have ranged from 55,000 to 65,000 acres, from which 10 to 13 million crates of sweet corn were marketed.

Wolf says the extra amount of sugar in Florida Staysweet is the result of a different sugar-producing gene which regular sweet corn hybrids do not have. Most commonly grown hybrids have only about 3 percent sugar as compared with the 9 percent in Florida Staysweet.

While regular sweet corn hybrids lose most of their sweetness

shortly after harvest, especially when they are not refrigerated to prevent the sugar from turning to starch, Florida Staysweet retains its sugar content.

"In fact, after ten days storage under refrigerated conditions, the new hybrid had more than three times as much sugar as 'Tobelle' corn, presently the state's most widely grown commercial sweet corn hybrid."

In tests at five different south Florida farms, yields of Florida Staysweet were equal to or superior to those from 'Tobelle'. Wolf says the new hybrid also shows good resistance to northern leaf blight, a serious disease capable of reducing yields of 'Tobelle' and other susceptible corn hybrids.

Recommended planting dates for Florida Staysweet in northern Florida are from March 15 to April 15; in central Florida from February 15 to April 1, and in south

Florida from September through March.

Seed is being shipped in moisture proof bags. It should be stored in a cool, dry area because it loses its germination and vitality quite rapidly if the seal is broken and the seed is exposed to moisture from the atmosphere or high humidity in a regular cold storage room or home refrigerator. Seed bags that have been opened should be resealed.

The new hybrid has so little starch in the kernels, Wolf explains, the rate of germination and degree of seedling vigor may be less than for existing sweet corn hybrids. This problem can be solved, however, by planting extra seed in the row and thinning the seedling plants to the proper spacing.

Commercial growers can use the

PROFESSOR EMIL WOLF displays his new "Florida Staysweet" corn at the UF's Agricultural Research and Education Center in Belle Glade. Once consumers discover the superior taste of Florida Staysweet over existing sweet corn varieties, growers expect there will be a growing demand for the new hybrid sweet corn. Florida Staysweet is suitable for both home gardens and commercial production.

It was kinda hard to get Beau Wigley to comment.

"Beau," say I, "how'd the girls come out?" Beau pretended she didn't hear. "Beau...Beau...BEAU!" She finally turned around and one glance told all.

"You've got next year," I said. "But even though Glades didn't get all the way through the district tennis tournament at John Carroll this year, they had a very good season."

They aren't the only ones at the local school having a good season. As of this writing, the baseball team is 11-1 and the girls' softball team has won the last four games.

Looking back on the football season, the Gators won the district but were beaten in the sectionals.

The student athletes have a record to envy, even though as yet they haven't carried the state in their classification.

Maybe they will next year.

Speaking of next year, Dr. Bob Allen came by to complain about the celebrated raft race. He noted his entry was rammed at the starting gate and the elaborate propulsion system severely damaged.

But next year, he said, he'll have everything ironed out and he'll be the entry to beat.

By next year, I assume he's assuming Belle Glade's 50th celebration will be the kick-off for an annual celebration.

That's good. A celebration of that nature tends to draw the people of a community together, promoting more pride in the town.

Garner Parrish stopped in the other day to show off an onion he grew in his backyard. He's living proof that you can't keep a good man down.

Garner was farm superintendent for GCI for over 20 years before being forced to retire because of his health. Actually, all he did was scale down the scope of his operations.

Today, his backyard is a bustling farm. Instead of hedge, he's got beans and tomatoes growing by the fence and where the rest of us mother grass to grow, he's putting up to shame with enough vegetables to feed a tossed salad to the neighborhood.

And in truth, he's come pretty close to doing just that. After the family freezer is full to bursting, the neighbor benefit with fresh vegetables delivered to their doorstep.

I benefited, too. Along with the huge 3-pound onion we photographed, he gave me an onion almost as large to go on my daily hamburger ration. And it was good, too.

My green thumb is somewhat limited. Matter of fact, I seem every living plant I touch turns to dust in short order.

But in my apartment in Pahokee, we have some planters on the patio filled to the brim with black mulch which is capable of growing leaved on a rock.

We had to dig up the plants that were in the planter because the cabbage trees that were growing there were sending their roots through the concrete and destroying the roof.

So right now, our planters are bare. Son Burke and I have the idea that we'll plant earthworms in the planters in an attempt to avoid the high cost of fish bait.

Wife Lilly has certain other ideas that don't include raising earthworms.

Matters rest there for the moment. While the argument rages, our muck is bare.

Opinion

Time to play ball...softly

The mills of government, like those of the gods, grind slowly, and nowhere is that more apparent than at the Lake Shore Recreation Area, that ten-acre plot of land the city

first moved to buy and develop two years ago.

One would think that after two years, the area would have been developed and in full use.

One would be wrong.

Because of a variety of reasons, including bids for construction reaching the astronomical category, development still hasn't begun, much less been finished.

But worse, there is still no real consensus on how the majority of that land should be used. Softball or baseball and little league; that's the question and for some people that question still hasn't been resolved.

The problem is that the Citizens Planning and Advisory Committee made original plans for a baseball field and a little league field, with thoughts they could both be used for softball.

The city commission was informed later, however, that there would be problems in using either of the two fields for softball, particularly for tournament level softball. After holding a special public meeting Mar. 29, the commission decided to change the plans to allow the construction of two softball fields which could be used for tournament games, while only one person speaking up for the softball fields.

The commission's reasoning was that the greater benefit would be derived from the softball fields because many more people play softball than baseball and the CPAC sent a memo to the commission last week asking the original plans be followed.

The commission's decision would appear to be the correct way to go, particularly since Bland and Unwin have already begun construction and the field would be completed by June and the fact that if a baseball field is indeed desirable in the city there is a strong possibility the proposed airport park will be a reality in the near future and it would probably be a better location for the baseball diamond.

In the meantime, one would think the city would be in more need of a facility catering to the greater number of participants rather than spectators.

After all, that's what recreation is all about.

Right rates

A move by the Palm Beach County Commission to deregulate rates by cable television companies may be a good one but it's something which should be watched closely.

The deregulation of rates was only one part of an overall cable TV ordinance passed by the commission and the majority of the commission obviously felt enough safeguards are built into the ordinance to prevent overcharging.

Free enterprise, of course, would demand the companies be allowed to set their own rates and competition would protect the consumers. But when a company owns a franchise in an area, competitive controls are conspicuous by their absence.

Commissioner Bill Bailey, when he moved to deregulate the rates, commented the industry would be bound by the market; in that subscribers would give up the service if and when the costs get too high.

About the only justification for that belief is the fact cable TV, unlike virtually every other utility, is still in the luxury category rather than a necessity and the alternative of a tall antenna is still available.

But if that's the reasoning processes used by the commissioners in their action, it would seem the natural extension, following deregulation, would be defranchising the service and throwing the business into the open marketplace.

CRACKER CRUMBS

BY DEAN JONES

We have been honored, not just us here at the Herald office but Belle Glade as a whole.

We were busy putting in our normal 16-hour work day not too many days ago when Lori told me there were a couple of gentlemen from Jacksonville in the front office who wanted to talk to me and when I walked out, lo and behold there he was... The Great Political Pundit of North Florida (notice the capital letters... they denote importance).

The Pundit, a most learned man indeed, is a political editor for a Great Northeast Florida Daily Newspaper and while both he and his paper shall otherwise remain nameless, he does write with Authority on the Politics of the State of Florida.

[A Very Important Pundit indeed, is a political editor for a Very Important Newspaper.]

And why was the Very Important Pundit in Belle Glade? Why, he's come to find out what we small-town-conservative-farmer types think about the upcoming governor's race.

The Pundit was following the Populace. Traveling the highways and byways (even Killer 80) to discover the grassroots opinions of This Great State on the Most Important Gubernatorial Election. He is a Most Conscientious Pundit.

I do believe he even believes what he writes.

All of which just happened to remind me of an incident a number of years ago when my college roommate was interviewing several persons in that Great Northeast Florida City who all had aspirations for the governor's race.

Ron, the roommate, found to his great pleasure (that's sarcasm, room!) that not only was he talking on one occasion to a political aspirant, but to The Pundit.

The Pundit and the political aspirant, rather than submitting passively to the interview Ron was doing for a college paper, began interviewing Ron about just how the grassroots opinions of the political aspirants as a group.

Which was more than a tad surprising, not to mention amusing, to Ron and myself since it's a well-known fact college students in the Sixties weren't particularly fond of any of the establishment politicians or the hacks (pardon me, Mr. Pundit, that just slipped right out... unintentionally of course) who supported them.

As a matter of fact, that was almost as amusing as the other day when I couldn't help but notice that while I recognized The Pundit, The Pundit didn't recognize me even though we'd worked in the same newsroom a few years ago.

It was sorta amusing too that when he walked in, he didn't realize for the first 20 minutes of our conversation, which was being Polled, what my name was (a simple oversight of forgetting to ask, I'm sure) or that he was in a newspaper office (quite understandable since he labors in the vineyard of a Great Daily which is considerably different from a country weekly).

He was, however, most gracious in his apologies when he deduced to ask just what kind of madhouse he'd fallen into and duly received the information.

"I'm sorry, Dean but there have been so many faces to come and go in the newsroom over the past few years, I just can't remember them all. You did look sort of familiar though."

That too was understandable, since I recall that while I was working at the city desk of that Great Northeast Florida Daily, The Pundit was obviously preoccupied with Great Issues of Political Significance.

At least, he never seemed to take the time to say howdy to the rest of us benighted laborers in the vineyard of The Daily... something which hasn't apparently changed a great deal.

He's apparently so preoccupied with those Great Issues of Political Importance, he couldn't even recall who the city editor has been for the past several months.

But I suppose that's the burden one must bear when one is a Great Political Pundit. One deals with problems of such magnitude, one doesn't have time to deal with the day-to-day realities of life. Unless, one is following the Populace of course.

Freeze responsible for lower sugar

CLEWISTON — The effects of the January 1977 freeze were still being felt over the past few weeks as the Florida sugar industry ground down in the Glades, according to Florida Sugar Cane League Vice President and General Manager Nelson Fairbanks.

Fairbanks said the freeze a year ago was the primary reason for a smaller harvest and a shorter season this year when he announced last week growers around the Glades area had gleaned 893,830 tons of raw sugar and 58,820,961 gallons of blackstrap molasses from approximately 300,000 acres of muckland.

He said the farmers harvested a total of 9,028,962 tons of cane, compared to 9,919,000 tons last year. Last year's harvest netted 980,000 tons of sugar.

"Last year's freeze was the greatest cause of short tonnage," Fairbanks said. "The Jan. 20, 1977 freeze killed everything in the plant cane and regrowth fields and later frosts, and frosts this year, did more damage."

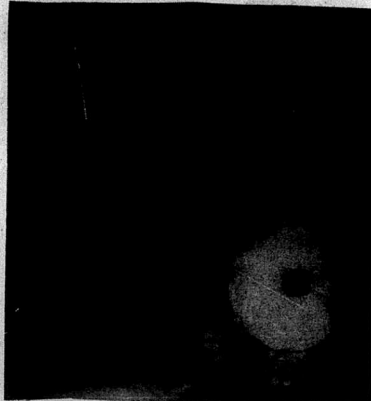

He said the later frosts combine with the freeze to result in shorter cane and fewer stalks per acre but noted the sucrose yield was 9.7 percent, better than in any of the past three years.

"We'll probably feel that freeze and the frosts this year for another year at least," he said. "We'll probably have shorter and next harvest too."

Fairbanks noted the "shorter and fewer stalks" per acre was also the cause of the shorter harvest season, which average 126 days, compared to some seasons in the past ranging anywhere from 140 to more than 200 days.

The first mill began grinding Oct. 26 of last year and the last mill in the area ground down April 7, he said. While that comes to a total season of 164 days, Fairbanks noted the average season length was derived from all the mills and the first to begin grinding were also the first to grind down.

"Of course, we want longer seasons," he said. "Because the longer we grind, the more efficiently the mills operate."

WHAT MAY WELL BE the largest onion ever grown in the muck is displayed by Garner Parrish. The big bulb measured seven inches across and 20 1/4 inches around and weighed three pounds. Parrish was farm superintendent for GCI for 22 years and grew the onion in his backyard garden. He said the variety is a "secret."

Backpumping resolution adopted by Chamber

BELLE GLADE — The Chamber of Commerce board of directors adopted last week a resolution in support of a petition "which would allow the current disposal of excess water from agricultural and municipal lands and which will have the effect of protecting the substantial interests of our members."

The resolution is aimed at discouraging the adoption by the Florida Environmental Regulation Commission of water quality rule changes proposed by the Department of Environmental Regulation which is considered by most agricultural interests to be detrimental to farming in the state in general and in South Florida in particular.

The resolution specifically supports a petition made by Beardsley Farms, Inc., to the Environmental Regulation Commission which calls for protection of the current practices of disposal of excess rain water and agricultural water from cities and farms in the Everglades Agricultural Area.

The directors left doubt either that they are also concerned with the moves being made to stop

backpumping which are coming from other directions than the DER water quality rule change.

In other discussion, the directors were told by President Dale Stapp and Secretary Jewel Crane the Chamber had made an estimated \$1,300 profit on the Chamber's barbeque during the city's 50th Anniversary celebra-

tion. Several of the directors mentioned they had heard talk around town from people who were pleased with the way the celebration went and comments were made that the community should sponsor some kind of annual celebration along the same lines.

Zawadski completes Navy course

Navy Machinist's Mate Fireman Apprentice Victor J. Zawadski III, son of Mr. and Mrs. Victor J. Zawadski Jr. of 1035 Wedgworth Road in Belle Glade, has completed the Basic Machinist's Mate Course. During the course at the Naval Training Center, Great Lakes, students received instruction on the use of hand tools and machine shop equipment. In addition, they studied the basic operation, maintenance and repair of ships' propulsion equipment, evaporators and generators. The students were also introduced to the types of duty watches that Machinist's Mates stand aboard ships.

DOING IT YOURSELF IS HALF THE FUN. ESPECIALLY WHEN YOU HAVE THE MONEY.

Do-it-yourselfers get two kinds of satisfaction: a beautiful project, and a bunch of money saved.

But it takes money to save money. Lumber, light fixtures, fabric and floor coverings don't come free. Neither does a well-equipped workshop — for paneling a den, refinishing furniture or building a garage.

The beauty comes in Florida National's installment financing. You get the money you need, and pay it back in one low payment a month.

With Florida National's help, you can have fun, save money, make your home more livable, and afford it!

WE KNOW HOW IT IS. WE KNOW HOW TO HELP.

Christian Comments

Dad and my two brothers were off somewhere, and at six years old I was too young to go along. Mom had long since given up trying to keep us from riding the back of the couch like a horse. And that was what I was doing. That March night in 1966, galloping along my imaginary prairie put me at eye level with a famous painting on our wall, the one depicting Christ knocking on a door.

It had hung there for as long as I could remember, but for some reason I quit bouncing and just sat staring at it from a few inches away. Whose door was it? I wondered. Will they open the door? and then what?

Mom would know. She sat on the couch and didn't even ask me to come down from my saddle. "That is the door of your heart," she said, probably wondering whether I could grasp the symbolism. "Jesus wants you to open the door and let him come into your life."

She showed me several verses from her Bible, including Rev. 3:20: "Behold, I stand at the door, and knock; if any man hear My voice, and open the door, I will come in to him and will sup with him, and he with me."

Perhaps having always gone to Sunday school and church helped. When she said that I needed forgiveness of sin and needed to invite Jesus into my life, it somehow made sense. There was,

of course, no heavy sun to turn from. My life would not change much, at least on the surface. But I'm convinced that because of that night, God has protected me from danger, from sins that might have otherwise beset me, and from circumstances, and decisions that might have turned my life for the worse.

The usual doubts and struggles came during my early teens when I had to make sure my faith was my own. It was my father who counseled me and helped me put things in perspective.

I told him I was tired of boring sermons, slow hymns, and church hypocrites. He challenged me to investigate the worth of all those elements, alongside the claims of Christ. That was his failure.

I tested the claims of Christ on my life, particularly John 10:10: "I am come that (you) might have life, and that (you) might have it more abundantly." Almost overnight, it seemed that my problems with church became the sources of my highest joy.

The "boring" sermons became the meat of the Word that I was finally ready for; the "slow" hymns became beautiful, emotional expressions of praise for a loving God; and those "hypocrites" became pilgrims just like me, searching for the place and meaning of God in their lives.

Garden Club holds meeting

BELLE GLADE — The Belle Glade Garden Club held its monthly meeting in the home of Mrs. Omar Nelms, with the president Mrs. Alene McAllister presiding. After the invocation the president presented several projects in the matter of business.

Plans are materializing on the canal beautification project when the club will plant shrubbery and flowers along the canal between the bridges in the SE section of Belle Glade by the Everglades Federal Savings & Loan location.

The club voted to participate in the fund raising Crafts Festival sponsored by the Pahokee Woman's Club for the benefit of the mental health program. This festival will be held April 29 at the Pahokee Lions Club Building from 10 a.m. to 4 p.m. Participation will be all service clubs, schools, and individuals interested.

Several members expressed with favor, the large response received from many concerning the float made by the Garden Club for the celebration of Belle Glade's 50th Anniversary. The float featured the theme of the occasion, the beautiful Black Gull of the Everglades, laden with fresh flowers, plants, palms and grass, reigned over by the club president, Mrs. Alene McAllister. All extolled the fact that this is the oldest club in Belle Glade having been formed in 1927. Everglades Farm Equipment was sponsor for this float.

Following the business meeting the club members went in a group via motorhome to visit the Greath Field Ranch, owned by Dr. Matthews, near Indiantown. This is the club's second visit to this 35 acres of developed gardens kept in its natural setting of pines, palms, cypress, and many plants native to this section of Florida.

Dr. Matthews, in his travels around the world has added trees and plants from other countries to this landscape without changing the natural look of the area. The club members invited Dr. Matthews to a picnic lunch under a palm frond shelter in a wooded spot by a small lake before returning home.

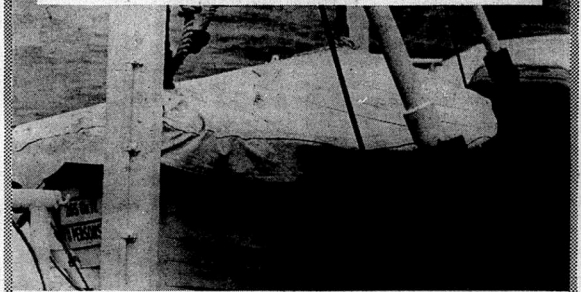

4A-HERALD-OBSERVER, Thurs., April 20, 1978

A SYMBOL OF SAFETY

When the ship is in danger, we can depend on the life-boats to take us over the seas to safety. It is comforting to glance at the life-boat when the seas are rough.

Our Armed Services are a symbol of safety when our country is in trouble, when war threatens to raise its ugly head. In the past, when war has come, our servicemen have not hesitated to give their lives to protect and defend us.

There is a special Day each year when we remember and honor our servicemen who have died in the defense of our blessed country. Let us not forget, as individuals, to honor these dead and give thanks to God for those who protect us even now. Remember them as you attend church this week.

The Church is God's appointed agency in this world for spreading the knowledge of His love for men and of His demand for men to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Gilbert-Campanaro vows said

BELLE GLADE—Janean Gilbert became the wife of Andy Campanaro Mar. 25 at the Reorganized Church of Jesus Christ of Latter Day Saints in West Palm Beach. Cary Gilbert, brother of the bride from Milton, united the couple in a brief ceremony amid pots of greenery.

The bride wore a floor-length white voile dress with white embroidered eyelet midriff and cuffs. Her veil of white illusion was attached to a circlet of asparagus fern and baby's breath.

Mrs. Jack Sanders, the bride's sister and matron of honor from Piquette, Mississippi, wore a similar dress of green voile and a head circlet of asparagus fern and baby's breath.

Maurice Frazier, the groom's brother-in-law of Glens Falls, New York, served as best man. Ushers were Darryl Frazier, nephew of the groom from Glens Falls, and Randall Gilbert, brother of the bride from Milton.

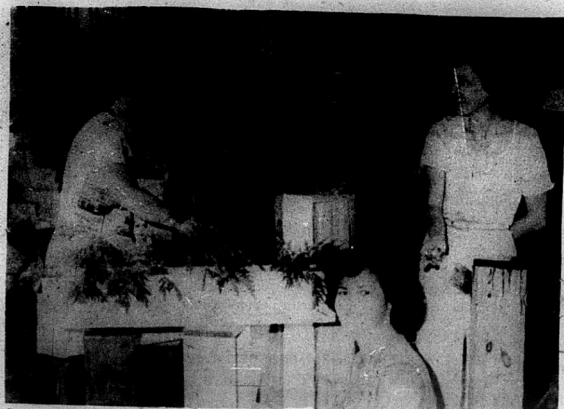

Dr. Philip Provenzale provided prelude music on the piano, and Mrs. Robert Howell played the

traditional wedding marches on the organ.

After the ceremony the guests attended a reception in the church. Serving cake and punch were Miss Maureen Frazier, niece of the groom from Glens Falls; Mrs. Richard Barbour, aunt of the bride from Mobile, Ala.; Miss Ellen Mann of Boynton Beach; and Mrs. Randy Howell, West Palm Beach. Crandall Barbour, cousin of the

bride from Mobile, kept the bride's book.

Other out-of-town guests included Mr. and Mrs. Angelo Campanaro, the groom's parents of Cheshertown, N.Y.; Mrs. Darryl Frazier and her infant son; The bride's mother, Mrs. Cathryn Gilbert of Milton; her aunts from Mobile, the Misses Ardieth and Laura Vickrey and cousin Brian Crandall Barbour, cousin of the

Over 700 Girl Scouts pay visit to Glades for field trip, tour

BELLE GLADE — Over 700 Girl Scouts and their leaders spent a day in the Glades Saturday, April 15.

The Palm Glades Girl Scout Council, Inc. sponsored a field day of activities in the Glades for area Girl Scouts.

The scouts toured the A Duda and Sons vegetable fields, a sugar house, watched a movie narrated by William Shatner, Captain Kirk of the famed Star Trek Television Series on the "Sugar Industry in the Glades." The Kane Kutters of Clewiston provided the scouts with Square dance lessons and the City of Clewiston invited the Scouts to attend the Sugar Festival held in Clewiston Saturday.

Following the Opening Flag Ceremony at the Glades Central High School Athletic Field at 10 a.m., the Scouts visited several businesses in Belle Glade.

Saturday afternoon the scouts motored to Clewiston where they participated in an old fashion hay ride and bon fire and street dancing.

Local Troops from Belle Glade, Pahokee and Clewiston served as hostesses for the occasion.

The Pahokee troop also camped out at the Tory Island Camp Site Friday evening.

Dr. Robert Allen, a former Boy Scout leader in the area coordinated many of the activities the Scouts enjoyed. Mrs. Gladys Gandy, Troop leader for troop 230 said the Council would like to thank Mr. Allen and the many Glades businesses that provided activities for the Scouts.

GIRL SCOUTS from the Palm Glades Council spent a day in the Glades Saturday with a variety of activities enjoyed. The Flag Ceremony opened the field day activities at GCHS at 8 a.m. Staff Photo

Dance recital set

"Dance in Three-Quarter Time" will be presented by students of Barbara Comrie's Ballet School on April 28 at 8 p.m. The program will be held at the Pahokee High School Auditorium.

Mrs. Comrie's students have prepared a program ranging from classical ballet to lighter toe-tapping numbers. Pahokee area students, from ages four to eighteen, will be participating as well as some of the advanced students from Mrs. Comrie's school in Labele.

Donations of \$1 for students and \$2 for adults will be accepted, with all donations given to the Prince Theatre Renovation Fund. Last

year's donations were used to purchase a color television for the pediatric ward at Everglades Memorial Hospital. This year's goal is set at \$800. The public is urged to support this worthy cause.

Pharmacy Topics by Dale Blodoo

Restaurants in Illinois now post directions on how to save the life of someone choking on food. It is hoped that everyone will become familiar with methods to avoid unnecessary deaths. (Most popular is the Heimlich maneuver, a quick "hug" just below the rib cage.)

Active ingredient in marijuana is now being used to treat glaucoma and asthma.

Study conducted at Massachusetts General Hospital finds that aspirin can protect male hip-surgery patients from forming blood clots in their legs. Doctors don't know why, but it doesn't work for women.

Doctor in Japan is treating color blindness with acupuncture, says his cure rate is 50 percent.

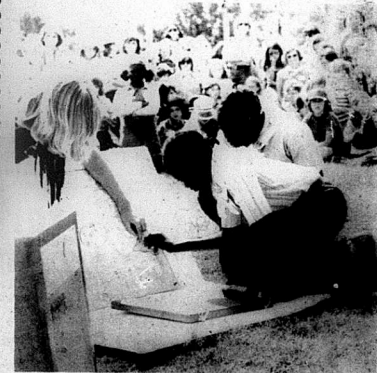

President Lyndon B. Johnson used to give out toothbrushes as gifts. He said the recipient would think of him "morning and night."

When you think of dental hygiene, think of.

GDS student is in contest

BELLE GLADE - A Glades Day School student, Rod VanDeusen, is one of the runners-up in the Florida Power & Light Capture the Sun Poster Contest for the Eastern Division. Rod will receive a \$25 savings bond and the Glades Day School a \$25 check for his achievement. Rod lives at 900 S.E. Second St., Belle Glade.

The top winner is Joe Rudmin from St. Vincent Ferrer School.

The other runners-up are Holly Francis Allevelli from West Gate Elementary, Justo Arenchiba from Carver Middle School, James Barnes, Lori Cozzi and Stacey DeCristi from St. Vincent Ferrer School, Dawn Hamer from Boca Raton Academy, Carolyn Luke, Pamela Priandor and Michael K. Wegler from Jensen Beach Elementary.

A \$100 savings bond and his school will receive a check for \$100.

The contest was conducted by Florida Power & Light in its six divisions. The Eastern Division consists of Palm Beach, Martin and St. Lucie and portions of Hendry and Indian River Counties.

Another Capture the Sun Poster Contest was held for children of Florida Power & Light employees with one top winner for all six Florida Power & Light divisions. A Glades Day School student, Eddie Mikovsky, won this prize. Eddie's father is Florida Power & Light Eastern Division Automotive Manager. Eddie lives in Lake Harbor on Corkscrew Blvd. Old 27. His prize is a \$100 savings bond.

"Response to the Poster Contest was most encouraging," said Ted R. Moffett, Eastern Division General Manager. "This contest was one of three we are offering for different age levels throughout our service area. The purpose is to encourage Floridians to become better informed about solar energy while learning more about energy conservation."

A second contest for junior and senior high school students is currently in progress and requires a technical paper or a practical working model/display. The winner will receive a \$500 savings bond. The college or university designated by the winner will receive a \$500 check. Entry blanks will be available at local offices until July 7.

The winner will receive a \$250 savings bond and the school a \$250 check. This contest closes at 5 p.m., April 28. Entry blanks are available to local schools and FPL offices.

The third contest is for adults. It offers a choice of entries; either a technical paper or a practical working model/display. The winner will receive a \$500 savings bond. The college or university designated by the winner will receive a \$500 check. Entry blanks will be available at local offices until July 7.

Mental health group meets today

BELLE GLADE - The monthly meeting of the Glades Steering Committee of the Community Mental Health Center of Palm Beach County will take place at 12:15 p.m. today in the Glades branch located at 300 West Canal St.

Lunch will be served the members and anyone needing transportation is requested to contact Center Director Jean Cogar.

Mrs. Cogar notified the members the staff has written a number of educational articles which are scheduled to be appearing in local newspapers and a WFTV radio program featuring herself, Dr. Daniel R. Collins and Robert Pollitt will be presented in connection with the fact April is mental health month in the Glades.

Revival set

BELLE GLADE - Evangelist James W. Miller of Phoenix, Ariz. will conduct a Spring Revival April 23-30 at the Church of God in Belle Glade at 301 S.E. Ave. E, except Friday and Saturday.

Rev. Miller has served our church with distinction as evangelist and pastor," the Rev. Roy Miller, pastor of the local church said. "And is a favorite speaker in prayer conferences and camp meetings."

The pastor invited the public to attend the revival meetings.

Officers named

BELLE GLADE - Members of Xi Beta Gamma Chapter of Beta Sigma Phi met Tuesday evening April 11 at the home of Mrs. Dee Luce.

The following members attended: Mrs. Pat Ayres, Mrs. Margaret Drawdy, Mrs. Dorothy Graber, Mrs. Mary John, Mrs. Flo Jones, Mrs. Virginia Lindrose, Mrs. Ruth McAllister, Mrs. Rosa Nash, and Mrs. Ruth Wedgeworth.

Mrs. Gene Connell, president, presided over the meeting after which installation of officers was held.

The new officers are: President - Mrs. Margaret Drawdy, Vice President - Mrs. Flo Jones, Extension Officer - Mrs. Nancy Carpenter, Recording Secretary - Mrs. Virginia Anderson, and Treasurer - Mrs. Pat Ayres.

Members were reminded by the president of the Waxy Party scheduled for May 6, at the Civic Center and the Founders Day Luncheon being held April 29, at Ringland Hall.

A most interesting and informative program on the life of David Ben Gurion was presented by Mrs. Pat Ayres.

Refreshments were served by the hostess.

Art show set

BELLE GLADE - The Second Annual Glades Central High School Art Show will be at the Belle Glade Municipal Library from May 9-May 31. There will be a great variety of work ranging from crafts and painting to commercial art.

The show is open to all students but the majority of the work comes from the classrooms of Mrs. Betty Zedonek and Harry Bloomquist. Prizes will be awarded to the best in show and merit tags will be given in various categories.

The show will be in display during regular library hours.

Thanks

The Glades Auxiliary of the Children's Home Society would like to extend thanks to Pioneer Growers Co-op for sponsoring their float in the recent 50th anniversary parade.

Thanks go, also, to the following businesses for their help: Everglades Farm Equipment, White Auto Supply, Glades Roofing Co. and Agbay, Inc.

CHRISTIAN DAY SCHOOL Principal Ray Steadham accepts a donation check from Joe Clayton of the Civitan Club. The Civitans generally donate a small amount to several schools, but decided this year to make a large donation to one school each year. Christian Day School was the first recipient of the large donation.

Rep. Lewis is to study Medicaid

State Representative Tom Lewis was appointed last week by House Speaker Donald L. Tucker to an advisory committee being formed to review the state's Medicaid program.

"As you are aware," Tucker wrote in a letter notifying Lewis of his appointment, "The Medicaid budget is a \$280 million program and the contractor is paid \$4.2 million on an annual basis."

Tucker said he wanted the committee members to examine a number of areas and report their findings and recommendations directly to him.

Berd-Graber tell of engagement

CAROL LYNN BERD

Mr. and Mrs. Harry S. Berd of Miami Springs announce the engagement and approaching marriage of their daughter, Carol Lynn, to William Barry Graber of Orlando.

Miss Berd, graduate of Florida State University, is presently employed in Orlando.

Graber is the son of Mrs. Dorothy Graber and the late Mr. William Graber long-time residents of this area. He is a graduate of the University of South Florida and has been associated with Hydraulic Supply, Inc. for the last three years.

The wedding date planned is for May 27th, to be held in Orlando, Florida.

Petirena-Storey plans announced

Mr. and Mrs. Mario Petirena of West Palm Beach have announced the engagement and approaching marriage of their daughter, Delina, to David Storey, son of Mr. and Mrs. Carl Storey of Pahokee.

Miss Petirena was graduated from Glades Central High School and is presently employed by H.R.S., West Palm Beach.

Mr. Storey graduated from Lakeland High School and attended Miami Dade Community College. He is presently in the U.S. Navy and is attending Air Traffic Control School in Millington, Tennessee.

Plans for a June 3rd wedding at the First Baptist Church, Pahokee are being made.

RITA HEFFERMAN

NATALIE WYATT

Pahokee girls receive nursing scholarships

The members of District #45, Florida Nurses Association, have awarded scholarships to two young

women from Pahokee to further and complete their nursing education. They are: Rita Hefferman and Natalie Wyatt who are presently studying nursing at Palm Beach Junior College.

The scholarship fund was set up in 1975, honoring the late Clara Stimson, an RN who worked for many years in the Glades area. One of the requirements of the loan is that the recipient return to the Glades area to practice nursing. One other nurse, Sheriann Hudson, has been the recipient of this loan and is now working in the area.

The Nurses' Association is also interested, according to the president, Sister Elizabeth Jean, in continuing education for those nurses who are currently practicing. Monthly meetings are held featuring programs pertinent to the nursing profession.

Some of these programs have been concerned with topics such as Pesticide poisoning, Drug Abuse, Food Interactions, Drug Abuse, Mental retardation, Modern Treatment of Tuberculosis, Sudden Infant Death Syndrome. Anyone interested in contributing to the Clara Stimson Memorial Scholarship Fund may send donations to the Treasurer, Ms. Nisha Muhlberg, P.O. Box 700, Belle Glade, Florida, 33430.

DIANE KATHERINE WEDGWORTH

Mrs. Elliott hosts Circle

PAHOKEE The Simonson-Lair Circle met at the home of Mrs. Tina Elliott with nine members present. Refreshments were served preceding the meeting. Mrs. Esther Hundley presided and opened the meeting with a short devotional on "Your Today and Tomorrow" by Norman Vincent Peale. She stressed "This is the day that the Lord has made. Let us rejoice and be glad in it."

Mrs. Uldene Todd presented the program on the purpose of knowing God with a historical study on Elijah and Ahab, showing the fulfillment of a 500 year old

Miss Wedgworth engagement told

BELLE GLADE Mr. and Mrs. George Wedgworth of Belle Glade announced this week the engagement of their daughter, Diane Katherine, to Tom Andrews Triplitt of Sumter, S.C., the son of Mr. and Mrs. Rupert Triplitt of Columbus, Ga.

Miss Wedgworth is a senior at Furman University, where she will be graduated June 2 with a Bachelor of arts degree in health and physical education and with certification to teach on the elementary level.

During her four years at Furman, she has participated in intercollegiate swimming and field hockey and also intramural volleyball, softball, tennis, basketball and racquetball. She is now a member of Senior Order, an honor

club for senior women. she is a 1974 graduate of Pine Crest School in Fort Lauderdale.

The groom-elect is a 1972 graduate of Columbus High School and graduated from Furman University with a bachelor of science degree in biology with certification to teach.

While a member of TKE Frater-

nity, he participated in intramural softball, soccer, football and basketball. He is now employed at Sumter High School, teaching biology and physical science and coaching the ninth grade soccer team.

The couple plan a July 8 wedding at Community United Methodist Church in Belle Glade.

PALM BEACH COUNTY'S OLDEST SAVINGS & LOAN ASSOCIATION

Prince Theatre group meets

PAHOKEE—A meeting held last week by the Prince Theatre Renovation Committee drew a larger crowd than previous meetings, with sub-committees taking shape.

As advised by the Pahokee City Council and Mayor Duncan Padgett

at their last council meeting, a \$0.50 matching grant from the county may be the route to follow in raising funds for renovation of the theatre. However, Padgett explained that the city and the committee in particular, must raise its share of the money before the

county will provide the remaining funds.

Thus, the committee must raise \$50,000 for the approximately \$100,000 project. The building will be used as a community center for the entire Glades community, not only Pahokee where it is located. Recitals, concerts, plays and the like may be presented at the theatre once work is completed.

Anyone wishing to make donations to the Prince Theatre Renovation Fund may send them to P.O. Box 10, Pahokee.

As suggested by committee chairman Mrs. Harriet Seledes, individual committees will be formed. The committees are: fundraising, technical, membership, publicity, financial and telephone. The chairman of each committee will report back at a general meeting, probably to be held once a month.

Garden Study meets

BELLE GLADE—The April meeting of the Belle Glade Garden Study Club was held in the home of Mrs. Guy Wood with Mrs. Walter Kriedler as co-hostess.

Mrs. Helen Blair was elected to membership. Two guests, Mrs. Ruby Howell and Mrs. June Mowen were introduced.

A combination of tiger lilies and delphiniums arranged by Mrs. Joan Thompson tied for first place in the awards contest with an arrangement of geraniums and crotons by Mrs. Jan Suttle. Second place went to Mrs. Bee Wood for her design of snap dragons, African daisies, gerbers and larkspur.

Horticulture Chairman Joy Larsen reported on growing herbs and passed around samples of fresh basil, thyme, oregano, rosemary, and two types of mint.

May 12 was set as the date for the installation luncheon at the home of Mrs. Linda Steele.

The plant, a dracena compacta was won by Mrs. Joan Thompson.

Following the business meeting, members enjoyed a tour through Mr. & Mrs. Milton Carpenter's greenhouse and gardens. Mr. Carpenter explained the special equipment installed to accommodate

the needs of the many exotic plants.

Members attending the meeting were: Mrs. Frances Ball, Mrs. Joan Thompson, Mrs. Anna Mae Chapman, Mrs. Nancy Creech, Mrs. Joy Larsen, Mrs. Laura Lockmiller, Mrs. Linda Steele, Mrs. Jan Suttle, Mrs. Gloria Swager, Mrs. Kate Trammel, Mrs. Ruth Wedgworth, Mrs. Bee Wood, Mrs. Ruth Kriedler, Mrs. Mary Roth, and Mrs. Lynette Thompson.

BELLE GLADE—In the collections of paintings on display at Florida National Bank showing April 18 through 28, one can find a wide variety of subject matter. The artists are members of the Monday Painting Class taught by Margaret Earwood. Each artist selects his own subject and interprets it in his own way.

Edrye Burdine, a former member of the class, will be a guest artist. Her award winning "Okefonokee Swamp" will be a part of the show. Ruth Carpenter's "Ebb Tide," also exhibited in Lake Worth, will be an entry.

Maude Layfield's "Old Pump

House" will be easily recognized by those familiar with the locale.

Jeannette Crew's "Fishing at Sunset" is a painting of her grand children.

Sharon Wedgworth's "Mountain Lake" is a reminder of her western holiday with the Wedgworth family. Debra Altman's "Little Mountain Waterfall" is a quiet beauty spot near her family's cottage in North Carolina.

Nan Drea's "Smokey Mountain Autumn" will appeal to those who enjoy the beauty of Autumn. Ruby Jones's "Sunsets" and "Evening Moonlight" are restful and peaceful.

Mrs. Earwood says the year is ending very satisfactorily. To her art is a very satisfying career. Helping others and seeing them enjoy painting is very fulfilling.

Green growing things, and phosphate mining.

Phosphate, of course, is necessary to produce green growing things: food. What many people don't realize is that phosphate mining also can result in green growing things. Land lush enough to be parks, golf courses, homesites, farmland.

During the past 10 years, reclamation has been completed on some 30,000 acres. In 1976, almost three times more acres were being reclaimed by the industry than were being mined. And since mid-1975, no mining operation, by law, can be begun without a reclamation plan covering each specific area.

Learn more about the end results of phosphate mining. Along the way, it provides food, jobs and tax dollars. And in the end, still more green.

Write P.O. Box 5530, Lakeland, FL 33803.

Belle Glade fireman goes to Pahokee

PAHOKEE — Warren Street, presently a Belle Glade fireman, was hired by the Pahokee City Council Tuesday night as the city's third fireman.

Pahokee Fire Chief Cecil Phillips said Street "has the qualifications to be a good fireman" and has the recommendation of the Belle Glade Fire Chief. His annual salary will be \$10,000 and he is to begin work in two weeks.

Street joins Chief Phillips and Assistant Chief Danny Denton as the only paid city firemen. He is also certified as an Emergency Medical Technician and "is a good mechanic," Phillips said.

The Chief said a third fireman is especially needed at this time since Denton will be starting a five weeks fire course and Phillips would be left to handle the daytime calls.

"We've needed a third fireman for a long time," Council President Wynona Cummings stated.

Plant clinic is scheduled

BELLE GLADE — A plant clinic will be conducted at the Glades Agricultural Office at 1 p.m. May 3 by Gene Joyner, urban horticulturist with the Palm Beach County Cooperative Extension Service.

"Many people have problems with various plants in their landscapes," Joyner said, "and need help in diagnosing what the problem is and how to correct it. This plant clinic is set up for the purpose of allowing the public to bring in any problems they are having with their trees, shrubbery and lawns, and an agent will be available to look at the samples and diagnose the problem."

The free clinic is not a formal class or lecture and is conducted on an informal basis. Anyone having plant problems is encouraged to attend.

ROBERT HARRY JOHNS was the recipient of a check for \$1,500 from the efforts of a barbecue fund raising project. From left to right, Detective Cpt. Frank Fogleman, Sheriff Willie Johns, and David Goodlet.

Deputies give check to Johns

BELLE GLADE—Palm Beach County Sheriff Richard Willie presented Robert Harry Johns, 53, whose store in Lake Harbor Nipper's General Store, valued at more than \$100,000 was destroyed by fire Jan. 30, a check for \$1,500 April 12 at the Belle Glade sub-station.

The Belle Glade Sheriff sub-station, the office of County Commis-

sioner Bill J. Bailey and the office of State Attorney David Bludworth sponsored a barbecue at the Aubrey Farmer Pavilion April 9 as a fund raising event for Johns.

David Goodlet, an administrative assistant to Bailey, said money from the barbecue and a fund in Johns' name at the Florida First National Bank of Belle Glade would well exceed \$2,000 when all

transactions have been cleared.

John said he would like to thank the sheriff, along with Detective Capt. Frank Fogleman and those who assisted in the fund raising event.

He said he has acquired a restaurant in Moore Haven, formerly named Granny's, on U.S. 27 but has renamed the place "Bob's Restaurant."

Johns also lost his son Jeffrey, 21, who was killed during a hold-up of Nipper General Store, Sept. 30, 1977.

Thurs., April 20, 1978, HERALD-OBSERVER-11A

Rotary donates to cystic fibrosis

Belle Glade—The local Rotary Club has made a donation of \$100 to the National Cystic Fibrosis Foundation to be used in research on children's lung diseases.

Oscar Schwartzberger presented the check to Ms. Elenor Geison of the West Palm Beach office of the foundation at the regular meeting Tuesday.

Ms. Geison told the club members Cystic Fibrosis is a genetic disease passed from the parents to the child. It has a high impact economically in that it costs an average of \$5,000 per year for a child with CF, excluding any hospital costs.

At one time, the average lifespan of a CF child was only three years. Today, that has been increased and the oldest person with CF in Florida is now 38.

One in 20 Americans carry the

faulty genes that cause CF, said Ms. Geison, but the disease can only occur when both parents are carriers.

"We want to reach people and tell them about cystic fibrosis," said Ms. Geison. "Few know about it and what the Foundation is doing to help understand it."

She showed a film on cystic fibrosis and related diseases and answered questions from the members.

In other Rotary business, Buddy Sizemore was appointed by president Bob White to coach the club softball team, a team that so far exists only because of a challenge issued by the Kiwanis Club.

Sizemore, in turn, named Terry Kirchman his "personnel director" since it was Kirchman's idea Sizemore should be appointed softball coach.

Wetherington Funeral Home, Pahokee was in charge of arrangements.

DOW JONES, YOU WERE ONCE A HIT. NOW YOU'RE A MYTH!

Ever wonder why you receive daily quotes from the stock market? Simply because stock prices are never definite. They fluctuate from day to day. And as they do, so does the return on your invested money. Peoples Federal can demonstrate that over the past ten years, deposits in certificate accounts have returned substantially more than like amounts placed in stocks or bonds. Peoples Federal guarantees this return, and unlike the stock market, insures every penny! Smart investors know a good thing when they see it.

South Bay discusses zoning and fire truck

SOUTH BAY — Members of the South Bay City Commission found Tuesday night they have no power to grant variances on zoning questions but they do have a chance to get another fire truck for less than \$3,000 this year.

The zoning question came up when T. R. Scott, a Lutz-based contractor, appeared before the commissioners to complain that Leslie Smith, a South Bay man he is working for, was first told he could build a four-unit apartment building on a Southwest Seventh Avenue plot of land and was then told he couldn't.

Smith, who appeared with Scott, said he had asked City Clerk Virginia Walker about his plans some time ago, when he was in the process of buying the land across the street from Days Inn, and she told him he could build the apartment.

But Scott said when he attempted to get the building permit last week, he was told the 11,745 square feet on the property isn't adequate for the project and the permit was refused.

Before the commission could make a decision, however, City Attorney Jim Gann said he had researched the laws and had found the city fathers have no right to grant the variance, that it will have to go before the Board of Adjustments.

The Board of Adjustments was formed more than a year ago but has never been active. Gann said the only appeal from the board is through circuit court.

Mayor Billy Wells said he would notify the board members, Harvey Hodges, L.C. Police, Thomas Williams, Paul Wilson and Howard Woodham, they should set a meeting and then notify Scott of when the meeting is to take place.

Later in the meeting, Fire Chief Jim Webber told the commission the city has a chance to get a backup fire truck, saving the \$5,500 cost with the State Division of Forestry.

The city's share of the cost would be \$2,750 and it would be for a 50 year lease. The truck would be shared with the Division of Forestry and Webber said its primary use would be as a backup unit to the two trucks already in the department.

He explained the city could get the truck through a program begun by the Division of Forestry in which the Division is buying and rebuilding, on a cost sharing basis with cities, old military vehicles.

The truck in question, he said, is a 1970 International chassis equipped with a 1,500 gallon pumper tank. He said there would be no problem with fittings and parts because they are all standard.

Webber said he needs some commitment from the commission by April 28 and funds would have

to be allocated by Dec. 1.

The commissioners instructed him to get complete copies of the paperwork, including contract and lease, and turn them over to Gann for his perusal and opinion. The commissioners said they would meet in special session before the

deadline if it is necessary to go ahead with the plans.

In other business, the commission tabled action on hiring a city manager until more information is received and a report can be made on the applicants so far for the job.

Glades Central annex library is open nights

BELLE GLADE — The Glades Central High School Annex Library is now open Wednesday and Thursday nights from 7 p.m. until 9:30 p.m. Welcome are students and interested commu-

nity members who wish to study, read or do some research in a quiet atmosphere.

A librarian will be on duty to assist you.

Profiles in Business

he came.

Both Enrique and Cristo are married. Cristo has two other children besides Enrique. His other son, Nestor, is their book-keeper. The "baby" is an 11 year old named Evelyn. Enrique and his wife have on son, Shawn, who

is 3 months old. In their spare time, both are avid horsemen.

When asked their opinion of the Glades area, Cristo replied that the former owner had told them they would find people very friendly and that is exactly how they found them. He says the business is picking up little by little, and he

hopes more people will stop by and see what they have.

Enrique summed it up by saying they are "here to serve everyone," and by that he means "providing help and assistance." He plans to be here for a long, long time. He also invites everyone by to

chat and to check out their low prices.

Seminole Auto Parts is located at 101½ Palm Beach Road in South Bay. They are open from 8 a.m. to 6:30 p.m. Monday through Saturday, and from 8 a.m. to 4 p.m. on Sundays.

CORN

Cont. from P1

"compensated rate" seeding technique whereby seed with a lower germinating rate is planted at a closer distance in the row to achieve the optimum plant population per acre and avoid the need for thinning.

Wolf notes a special precaution. "Florida Statesweet plantings must be isolated from regular sweet corn, field corn or pop corn by four weeks difference in planting dates or at least one-fourth mile in distance. Pollen from any of these other corns falling on Florida Statesweet silks will cause starchy, unsweet kernels on the ears and destroy its excellent eating quality. Conversely, pollen from Florida Statesweet will cause objectionable starchy kernels on ears of regular sweet corn," Wolf states.

"The harvest period for Florida Statesweet is not as critical as for normal sweet corn, but it should be harvested as near to optimum maturity for the majority of plants as possible. The pericarp or chewable portion of the kernel becomes thicker as the ears pass optimum maturity, with loss in eating quality.

Sales of Florida Statesweet seed outside of the state are being made through Illinois Foundation Seeds, Inc., Champaign, Illinois. Florida growers may obtain seed from their local sources which are being supplied by the Florida Foundation Seed Producers, Gainesville.

Farm workers being recruited

BELLE GLADE — Farm crew leaders and family group leaders are being invited to meet with state and federal representatives at 6 p.m. April 27 to discuss possible agricultural job openings with various vegetable and fruit growers during the summer months.

After having graduated from the Ryder Technological Institute in Tampa, Enrique was ready for business. It was decided that he would be a great help in the South Bay store, so into the partnership

Miss Patricia S. Meier, employer services representatives with the Belle Glade office of the Florida State Employment Service said the 12 to 15 representatives will be meeting with the crew leaders at the FSES office at 300 S.W. 16th St.

The representatives will be recruiting agricultural workers for employment in various crop activities including tomatoes, cucumbers, apples, pears, peaches, potatoes, tobacco and other vegetables.

Coach faces problem making MVP selection

BELLE GLADE—Glades Day girl's tennis coach Rita Schoenfeld has a problem.

How do you pick a Most Valuable Player when it was a team effort that resulted in a 13-1 season. "We had a fantastic year," said Miss Schoenfeld. "The girls played up to their potential most of the time and when we needed that little bit extra, they gave it."

The local team's tennis season ended last weekend in the district tournament held at John Carroll. Martin County won first place, but Glades Day was ashamed of its fourth place finish.

"The players that defeated our girls were mostly from Martin County," said the coach. "They were just good players."

Playing singles for Glades Day were Beau Wiggle, Susie Stevens, Denise, Monica and Cheryl Hooker. In doubles, Beau and Susie teamed up in the Number 1 slot and Monica and Denise in the Number 2.

In round one of the tournament, Beau received a bye, or passover, and won round two over Pahokee's Melba Merrand. She lost round three in three sets to a girl from Vero Beach.

Susie lost round one to a player from Palm Beach Gardens and Denise beat her opponent in round one and lost round two to the second seeded girl in the tournament.

Monica had a bye in the first round, won the second and the third and in the finals, lost in three sets to her opponent from Martin County. She was the only Glades Day student to make it to the finals.

Cheryl received a bye in round one and lost to Martin County in three sets and a tiebreaker in

round two.

The doubles team of Beau and Susie was defeated by Benjamin in round one and Monica and Denise received a bye in round one and were defeated by Martin County in round two.

In the boys' tournament, Mike Stevens, Bill Cochran and Philip Dulany all made it to round two before being defeated and Chuck Lane and Steve Wilson lost in the first round.

The doubles teams of Mike and Philip lost in round two and Bill and Chuck in round one.

Miss Schoenfeld said the best may be yet to come. On her first team, she will lose only one player to graduation, Denise Hooker. This

will break up the sister doubles team of Denise and Monica, that went 10-0 for the season, but if Monica feels lonely she can always turn to her younger sister Cheryl for another sister duo.

The girls are the daughters of Mr. and Mrs. Robert Hooker of Belle Glade. All three had outstanding seasons.

Seniors who will also be leaving, but who were not ranked on the first team include Peggy Ruth Carpenter, Evelyn Galis and Nancy Creech.

But Coach Schoenfeld's problem still isn't solved. "How do you pick a Most Outstanding Player when they've all been outstanding?" she asks.

Gators lose first, win two more

BELLE GLADE—The Glades Day baseball team lost their first game of the year last Tuesday to Jupiter Christian, but in retaliation, took their frustration out on Moore Haven and Kings Academy later in the week and advanced their record to 13-1.

"Errors and wild pitches in the first two innings cost us the game," said Coach Tom King. He noted of the 14 errors and seven wild pitches in the game, eight of the errors and two of the pitches came in the first two innings, giving Jupiter the impetus to go on to a 10-4 win.

Mark Foster was the losing pitcher and the Gator high point was a homer by Dick Crockett. Quique Echave hit well, going two for four with one RBI.

Even though the Gators lost, they out-hit Jupiter 8-6 and it's possible the team had the "pre-prom jitters."

Friday, they took it out on Moore Haven, soundly trouncing the Terriers 14-2. Echave was four

for four, Steve Richie had a triple and three RBIs and Sammy Duda was the winning pitcher, striking out seven and pitching a two hitter.

Not to be outdone, Sammy's brother Tommy was the winning pitcher Saturday against Kings Academy. He gave up only two hits and struck out three.

Echave was three for four at the plate, matched by Jose Cano, also

three for four with four RBIs. Pedro Rodriguez went two for three with four RBIs and Miller was two for three.

Tuesday the Gators were scheduled to play Summit at Belle Glade and Saturday, a doubleheader was on tap with Florida Air. The game was previously scheduled to start at 1:00 but King said this had been changed to 10:00 a.m. The second game will begin around noon, he said.

Girls now have 5-4 record

Belle Glade—The Glades Day girl's softball team dropped two games and won another to bring their record down to 5-4 for the season in action last week.

Tuesday, Jupiter Christian got a run in the bottom of the eighth inning to pull ahead of the local team 12-11. A runner on third beat

out a pitch to home for the run. Mimi Fowler pitched for the local girls and Lisa Smith got the big play of the game when she batted in two runs to tie the game at 11-11.

Denise Morgan creamed a homer to bring in one run and Donya Adams got another homer

Thursday, the girls whipped Lake Worth Christian 16-1 with Mimi striking out three and walking one. Kelly Teets got a homer with one run and the team as a whole batted .500.

On Friday, Moore Haven pulled ahead of the Gators 5-2 on three unearned runs. A single hit and three errors in the third inning contributed to the loss, said Coach Manny Perez.

The game was fairly even, but Moore Haven had more batting power and Glades Day was faster, he noted. The teams will play a re-match this Friday.

Sports

Girl Raiders shatter two county records

BELLE GLADE -- Members of the Glades Central girls' team set two county meet records Saturday during the annual invitational as they locked up third place in the conference and fourth place in the 14-school meet.

Janice Wright set a county record when she leaped 5'4" in the high jump and was in on setting another record when the SSU medley relay team ran the course in 1:52.3, the fastest time posted this year in statewide competition.

The other girls on the record setting team were Barbara Bostic, Rosa Wilkerson and Marleha Peavy.

Rosa Wilkerson also set the fastest time for the meet in the 440 yard run, beating out all the competition in just 58.4 seconds.

half a second slower than the record-setting time of 58.9 seconds last year.

Miss Wilkerson went on to said.

break last year's county record in the discus throw but her heave of 114'1" was only good enough for second place this year.

Marleha Peavy won third place in the long jump with a leap of 15'3".

The 880 yard relay team, made up of Priscilla Monroe, Janice Osborne, Barbara Bostic and Theresa Jarrell, in 5:32 seconds.

Miss Bostic won sixth place in the 100-yard dash in 11.7 seconds.

Team coach Jay Seider said the girls' team has talent this year but has been hurt by lack of depth. He went on to say the girls are only now making their best efforts, getting their times down to state competition level.

He said the girls' district meet will begin Friday at Atlantic High and the district meet will begin April 28 at North Shore High.

"I believe we can qualify about ten girls for the state meet," he said.

PAHOKEE HIGH SCHOOL'S boys track team proudly show the first place trophy they received after winning the Clewiston

Invitational title Friday in Clewiston. The Blue Devils piled up 126½ points in the meet.

MEMBERS OF THE PAHOKEE HIGH School girl's softball team this year include Loretta Jones, Tammy Harris, Paulette Field, Mary McKinney, Sandra Johnson,

Sandra Petty, Patsy Lee, Sabrina Jones, Isabella Jackson, Carla Lott Sharon Powell, Sheila Jones, Tina Hill, Betty Bynes, Jonna Pilgrim, and Coach Davis.

Disqualification hurts track team

BELLE GLADE - A third place showing at the Palm Beach County High School invitational meet Friday dissolved into a fifth place for Glades Central when two relay teams lost first and third place ratings by disqualifications.

The Raiders' mile relay team was disqualified for the second time this season after posting a first place victory, running the mile in 3:27.9 according to Coach Willie McDonald. The 440 relay team's third place 44.2 win was also wiped out by a disqualification.

McDonald said the mile relay team was on its way to the win when one of the runners raised the baton in a victory gesture and

was disqualified by one of the field judges. He said the judge made his call after a Twin Lakes runner immediately behind the Raider was told from the Side of the track to "stop that hot-dogging" after making the same gesture.

The Raiders did manage to win the mile medley relay, however, as Michael Collier, Greg Bain, Joe Byrd and Bobby Brereton nosed out the competition in 3:39.5.

Michael Russell posted his best time for the year in the 330 yard intermediate hurdles, coming in second place with a time of 40.5 seconds.

Freddie Garrett threw the discus 144'5" to win third place in

the long jump, followed by teammate Joe Byrd with a fourth place effort of 20'8". Allen Johnson won fourth place in the 440 yard dash with a 51.4 second time and Willie Tyler placed fifth in 51.9 seconds.

Robert O'Neal placed fifth in the two mile run in 10:22 and seventh in the mile run in 4:45.7. In consultation runs, Roger Hester ran the 100 yard dash in 10.1 seconds and Greg Bain ran the same course in 10.2 seconds.

Limit panfish catches are still being caught

By Nan Corbin

BELLE GLADE - The bluegill and shiner continue to dominate the fishing scene this week, with most limit catches coming in on either live crickets or the artificial beetle spin.

Belle Glade fisherman Al Proper fished with Clarence Lewis on Friday for a total of 80 bluegills and again on Sunday with Carlo Proper and W.W. Ward for a limit of 150 all on crickets.

Joe, Billy and Ginger Brewer and Lloyd Kelly also reported their limits of bluegills on Saturday using beetle spins. E.E. Jones and son Eddie of Belle Glade came in on Saturday with 64 bluegills and then reported 27 more in about one hour's fishing on Sunday.

Among the bass fishermen reporting action during the weekend was Ray Brewer with a nice string to 5 1/2 pounds. Bruce Konrady reports that he and Doug Gilley used plastic worms on Saturday to take their limits of 10 each with 12 of these going five pounds or over.

Dan May of May's Bait and Tackle reported this week that Donnie Herring of Belle Glade made an unusual catch. Fishing with Herb Lewis Thursday evening, he caught a 5 1/2 pound snook on a blue plastic worm.

While Lake Okechobee contains snook, they don't often hit slow-moving worms.

May also said Jimmy Spires tagged a limit of bass to five pounds last week.

Now there's a faster, easier way to keep the weather out

Things have changed in the roofing trade. No longer do you have to depend on shingles or asphalt to keep the weather out. Now, there's **RAPID ROOF**. The rugged, acrylic latex roof coating. Whatever kind of base roof you've got—plywood, concrete, metal, asphalt—**RAPID ROOF** is a fast, easy, dependable alternative to the often inefficient roofing compounds of the past.

RAPID ROOF is dependable. Its non-flammable, non-solvent water based formula goes on quickly and easily by sprayer, brush or roller.

RAPID ROOF is durable. Its uni-layered design stands up to the elements far better than ordinary roof coverings.

RAPID ROOF is attractive. Its bright white color reflects heat, hides imperfections in base roofing material. Choose optional colored granules for a textured look.

RAPID ROOF is dependable. Its surface flexibility lets **RAPID ROOF** flex and expand for all-weather, year-round protection.

IN THE CIRCUIT COURT FOR PALM BEACH COUNTY, FLORIDA
PROBATE DIVISION
IN RE: ESTATE OF JOSEPH ROBERT WARD DECEASED
FILE NUMBER 78-550-CF-06
DIVISION

NOTICE OF ADMINISTRATION

TO ALL PERSONS HAVING CLAIMS or demands against the above estate and all other persons interested in the Estate: YOU ARE HEREBY NOTIFIED that the administration of the estate of Joseph Robert Ward, deceased, File Number 78-550-CF-06, is pending in the Circuit Court for Palm Beach County, Florida, Probate Division, the address of which is 300 North Dixie Highway, West Palm Beach, Florida 33401. The personal representative of the estate is Beatrice L. Ward, whose address is 1700 N.E. Avenue K, Belle Glade, Florida 33430. The name and address of the personal representative's attorney are set forth below:

All persons having claims or demands against the estate are required, WITHIN THREE MONTHS FROM THE DATE OF THE FIRST PUBLICATION OF THIS NOTICE, to file with the clerk of the above court a written statement of any claim or demand they may have. Each claim must be in writing and must indicate the basis for the claim or demand they may have. Each claim must be in writing and must indicate the basis for the claim, the name and address of the creditor or his agent or attorney, and amount claimed. If the claim is not yet due, the date when it will become due shall be stated. If the claim is contingent or unliquidated, the nature of the uncertainty shall be stated. If the claim is secured, the security shall be described. The claimant shall deliver sufficient copies of the claim to the clerk to enable the clerk to mail one copy of each personal representative.

All persons interested in the estate to whom a copy of this Notice of Administration has been mailed are required, WITHIN THREE MONTHS FROM THE DATE OF THE FIRST PUBLICATION OF THIS NOTICE, to file any objections they may have that challenges the validity of the administration of the estate, the qualifications of the personal representative, or the venue or jurisdiction of the court.

ALL CLAIMS DEBTS AND OBJECTIONS NOT SO FILED WILL BE FOREVER BARRED.

Date of the first publication of this Notice of Administration: April 20, 1978.

As Personal Representative of the Estate of Joseph Robert Ward, Deceased
